### 50th Year Celebration

VMSC is celebrating our 50th year of having fun with automobiles. We want 50 new members in our 50th year and have a deal for anyone that wants to join the fun.

#### SHOW SPECIALS!

#1. Anyone that signs up for membership at the autoshow or at the race on March 28 will race for free on March 28, and we will also waive the \$10.00 initiation fee. That saves you \$28.00.

#2. If you don't want to join yet, we have a deal to get you to try autocross at least once. If you register to race on March 28 and beat Richard West in his stock Subaru Station wagon, we will refund your \$18 and you race for free! Bring any car you want Porsches, vipers, corvettes, or even pickups. (\* New autocrossers only)

#### WHAT IS AUTOCROSSING?

Autocrossing is the sport of driving an automobile through a laid out course in a minimum amount of time and with the minimum amount of accumulated penalties. Only one car is on the same part of the course at a time. Your time is compared with other cars that are equal in performance and equipment. It is a sport that is 5% car and 95% driver. The club diligently strives to make it safe for you, your car, and all the bystanders. Ask a club representative at the show to explain the safety measures taken, and how your car is engineered to be driven in an autocross. VMSC even has loner helmets. VMSC is for everyone from beginners to pros. We just want you to have some fun.

### Sunday March 28th Autocross at Virginia Motor Sports Park

Tech inspection: Starts at 9:00 am  
Drivers Meeting at 10:00 am  
Racing begins at 10:30 am  
Costs: \$18 nonmembers (three runs)  
\$15 members  
\$1 bystanders

It was a great day at Southside Speedway. HOT, FAST, and a little SCARY. Thanks everyone for coming out this Saturday. We hope you had lots of fun.

We did have a guy scrape the wall at the end of the day. Fortunately he was not hurt.

His car was scratched on the front passenger side fender. Along with the wall he hit the fire extinguisher which then released all of its contents and added to the excitement.

Stephen Harper and his 300ZX was suprisingly fast and set the pace for the rest of the day.

Ray Lee's 240Z's turbocharger was so big, it changed the weather every time it kicked in.

Remember the next meeting is on July 15 at Romas on Staples Mill at 7:00 pm.

# Cutting Corners

## Club offers low-cost approach to racing

BY CHRIS WOODFORD  
 TIMES-DISPATCH STAFF WRITER

Almost every weekend during the summer, you can turn on the tube and watch big-name drivers go fast and turn left in a race car sporting a collage of colors and corporate sponsors.

But if the person with a limited budget and no big-name sponsors desires the thrill of fast driving and tight corners, the choices are limited.

Enter the Virginia Motor Sport Club, a group dedicated to autocross.

Autocross involves driving a car through a road course in a minimum amount of time and with a minimum amount of penalties. Only one car is allowed on the course at a time, and times are compared among cars of similar performance.

For Forrest Keeton, the VMSC was exactly what he wanted.

"I didn't like drag racing, and I didn't like driving in circles," Keeton said. "I like to go right and left. . . . Finally, I found this."

Keeton has been a member of the club since 1990, when he first saw the group racing in the parking lot of the former Food Carnival on Mid-

### IF YOU GO

■ **WHAT YOU NEED:** A car, a helmet (the club loans helmets) and a desire to go fast.

■ **COST:** \$18 for non-members to race, \$15 for members. Or at the end of the racing, \$5 for one fun run through the course, \$10 for three runs.

■ **WHEN:** Sept. 5 at Virginia Motorsports Park; Oct. 3 at Virginia Motorsports Park; and Oct. 17, the Virginia State Championship, at Virginia Motorsports Park.

lothian Turnpike in Richmond's Southside.

Keeton started out in Factory Stock, the lowest class the club offers, in his 1970½ Chevrolet RS Z-28 Camaro. Cars in this class may not be customized in any way to enhance performance. The engines, brakes, wheels, shocks and springs must be factory stock. Many in the Factory Stock class drive their cars to the race.

After having some success in Factory Stock, Keeton moved up to the Street Prepared class. Drivers in Street Prepared are allowed to alter the car, including a beefed-up engine or differ-

ent springs or shocks.

Keeton added a 350 cubic-inch, 400-horsepower engine that Southside Speedway regular Randy Adams had run in his race car. He also added a rollcage for extra safety.

"If you want to win, you have to put in new stuff," Keeton said. "You also have to know how to drive."

There's a reason that driving ability is important: The race courses are different for each meet. This year the club has held most of its meets at the Virginia Motorsports Park, but it also has run on several airport runways.

Using cones, club officials set up a demanding course that requires tight handling and good driving skills.

"It's cuts and corners and how well you remember, and how your mind reacts," Keeton said.

A typical course would have a long straight shot leading into some S-curves, a sharp U-turn and more tight turns back to the line.

If a driver hits one of the cones, 2 seconds is added to the driver's time. And if a turn is missed, it's a 10-second penalty.

Keeton has won every race this year in his class, beating out sports cars such as 1990s-era Camaros, Corvettes and Mustangs. With three races to go in the season, Keeton has the utmost confidence in his car.

"I can't see where anybody's going to beat me the rest of the year," he said.

What a rainy day. The effects of Hurricane Irene really made the course interesting. Front wheel and all wheel drive cars had a bid advantage. There were lots slides and hit cones. Bill Thomas ran a fun and safe autocross. It was anybody's day, in which regular guys beat the usual winners. Thanks for coming out.
